Use of trade or brand names is for clarity and information; it does not imply approval of the product to the exclusion of others which may be of similar, suitable composition, nor does it guarantee or warrant the standard of the product. Chemicals recommended were registered for the prescribed uses. Chemical registrations are continuously being reviewed. Should registration of a recommended chemical be canceled, it will no longer be recommended by The University of Tennessee. In order to protect people and the environment, chemicals should be used safely. This is everyone's responsibility. Read and follow label directions carefully before you buy, mix, apply, store or dispose of a chemical. According to laws regulating chemicals, they must be used only as directed by the label. Adjust the estimates as appropriate. This budget is intended as a guide only. Adjustments can and should be made as needed.

Use of trade or brand names is for clarity and information; it does not imply approval of the product to the exclusion of others which may be of similar, suitable composition, nor does it guarantee or warrant the standard of the product. Chemicals recommended were registered for the prescribed uses. Chemical registrations are continuously being reviewed. Should registration of a recommended chemical be canceled, it will no longer be recommended by The University of Tennessee. In order to protect people and the environment, chemicals should be used safely. This is everyone's responsibility. Read and follow label directions carefully before you buy, mix, apply, store or dispose of a chemical. According to laws regulating chemicals, they must be used only as directed by the label. Adjust the estimates as appropriate. This budget is intended as a guide only. Adjustments can be and should be made when needed.
